

AMENDMENTS TO THE SPECIFICATION

Please replace the following paragraph [0121] of the Specification. Applicant includes herewith a marked up version of the replacement paragraph, underlined and/or bracketed text indicating insertions, and strikethrough and/or double brackets indicating deletions.

[0121] These can be re-expressed to calculate the amplitude of each signal from knowledge of the maximum and minimum power in the frequency domain:

$$\text{Leakage: } V_l = \frac{|H(f)|_{\max} + |H(f)|_{\min}}{2} \quad (8)$$

$$\text{Reflected: } V_w = \frac{|H(f)|_{\max} - |H(f)|_{\min}}{2} \quad (9)$$
